EDUCATION

VIT Bhopal University

B. Tech CSE(Core) | CGPA: 7.73

Expected May 2026

Sri Sankara Vidyalaya Bhilai

Higher Secondary | Percentage: 79.8%

June 2021

SKILLS

- HTML, JavaScript, React.JS, MongoDB, Firebase, Node.JS, Next.JS, NextAuth.JS, Express.JS, Tailwind CSS.
- Canva, MS Excel, C++, Java, MS PowerPoint, RESTful API.

PROJECTS

Health ++

Oct 2024 – April 2025

- Developed Health++, a healthcare platform** enabling patient registration, symptom analysis, and doctor selection, streamlining the medical consultation process.
- Integrated Google Maps API** for location-based doctor searches, allowing patients to book one-time or long-term treatment plans based on ratings and specialization.
- Engineered a secure medical data-sharing system** where doctors can access and update patient profiles, ensuring encrypted transactions and role-based access control.
- Designed a modular architecture for future enhancements**, including AI-driven diagnostics, wearable device integration, and telemedicine capabilities, improving platform scalability.

Ration Seva

Feb 2024 – May 2024

- Transitioned the organization to a fully digital ration distribution system** by developing an intuitive online interface, resulting in improved efficiency and security while enhancing user accessibility for over 100 users.
- Implemented a faster and more reliable digital ration system**, reducing labor and overhead costs by 45% through automation and process optimization while ensuring scalability and real-time tracking.
- Partnered with cross-functional teams, including developers and management, to analyze project success metrics; identified 3 key areas for **improvement that led to enhanced user satisfaction rates across the platform**.
- Created and deployed a robust digital solution using Python and Django**, achieving 90% uptime while ensuring scalability for over 100 concurrent users in high-load environments.

EXTRA-CURRICULARS AND ACHIEVEMENTS

Achievements

- Completed a disciplined **100 Days of Code** challenge centered on C++ and Data Structures & Algorithms, while building a strong foundation in algorithmic thinking and strengthening problem solving skills and coding proficiency.

Extra-Curricular

- National Service Scheme - VIT Bhopal University** – Led awareness campaigns and community engagement initiatives, including skits on women's empowerment and voter awareness, fostering civic responsibility and social change.
- Conducted impactful outreach activities in villages, engaging over 100 local residents and promoting gender equality, democratic participation, and social welfare.

ADDITIONAL INFORMATION

- Interests:** Gaming, Football, Playing Tabla, Listening Music on KZ Dual Driver Earphones, Tech Trendy.
- Languages:** English (Professional working proficiency), Hindi and Chattisgarhi (Native or bilingual proficiency)
