EDUCATION

- **VIT Bhopal University**   August 2022 – Present
  B. Tech CSE(Core) | CGPA: 7.73
- **Sri Sankara Vidyalaya Bhilai**   May 2020 – Jun 2021
  Higher Secondary | Percentage: 79.8%

SKILLS

- HTML, CSS, Javascript, React.Js, MongoDb, Firebase, Node.Js.
- Canva, MySQL, MS Excel, C++, The Analytical Mind, IntelliJ IDE.

PROJECTS

Health ++   Oct 2024 – Present

- **Developed Health++, a healthcare platform** enabling patient registration, symptom analysis, and doctor selection, streamlining the medical consultation process.
- **Integrated Google Maps API** for location-based doctor searches, allowing patients to book one-time or long-term treatment plans based on ratings and specialization.
- **Engineered a secure medical data-sharing system** where doctors can access and update patient profiles, ensuring encrypted transactions and role-based access control.
- **Designed a modular architecture for future enhancements,** including AI-driven diagnostics, wearable device integration, and telemedicine capabilities, improving platform scalability.

RATIONSEVA   Feb 2024 – May 2024

- **Transitioned the organization to a fully digital ration distribution system** by developing an intuitive online interface, resulting in improved efficiency and security while enhancing user accessibility for over 1,000 users.
- **Implemented a faster and more reliable digital ration system**, reducing labor and overhead costs by 45% through automation and process optimization while ensuring scalability and real-time tracking.
- Partnered with cross-functional teams, including developers and management, to analyze project success metrics; identified 3 key areas for **improvement that led to enhanced user satisfaction rates across the platform**.
- **Created and deployed a robust digital solution using Python and Django**, achieving 99.9% uptime while ensuring scalability for over 10,000 concurrent users in high-load environments.

EXTRA-CURRICULARS AND ACHIEVEMENTS

ACHIEVEMENTS

- Completed a disciplined **100 Days of Code** challenge centered on C++ and Data Structures & Algorithms, while building a strong foundation in algorithmic thinking and strengthening problem solving skills and coding proficiency.

EXTRACURRICULAR

- **National Service Scheme - VIT Bhopal University** – Led awareness campaigns and community engagement initiatives, including skits on women's empowerment and voter awareness, fostering civic responsibility and social change.
- Conducted impactful outreach activities in villages, engaging over 100 local residents and promoting gender equality, democratic participation, and social welfare.

ADDITIONAL INFORMATION

- **Interests:** Gaming, Football, Playing Tabla, Listening Music, Tech Trendy.
- **Languages:** English (Professional working proficiency), Hindi and Chattisgarhi (Native or bilingual proficiency)
